### **DETAILED ACTION**

## Response to Amendment

Claims 1-16 are pending.

# Response to Arguments

Applicant's arguments, see pages 6-9, filed July 17, 2006, with respect to claims 1-16 have been fully considered and are persuasive. The rejection of claims 1, 4, 5, 8-10, 13-15 has been withdrawn.

## Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-12,

None of the cited references alone or in combination discloses the claimed driver circuit having the recited structural combination of independent claim 1, in particular having the signal processing means for generating a pulse current control signal and a second bias current control signal, where the pulse current control signal is generated using only the data signal.

Regarding claim 13,

None of the cited references alone or in combination discloses the claimed driver circuit having the recited method steps of independent claim 13, in particular generating a pulse current control signal and a second bias current control signal, where the pulse current control signal is generated using only the data signal.

Regarding claims 14, 15, 16,

Application/Control Number: 10/015,616

Art Unit: 2828

None of the cited references alone or in combination discloses the claimed driver circuit having the recited method steps of independent claims 14, 15 and 16, in particular driving the laser in accordance with data burst.
